Helping Clients Succeed

Our success is dependent on our clients' success. We don't believe keeping your books and records is good enough. Specific services have been developed to help you succeed.

Strategic Consulting

- Maximize the value at all stages of development.
- Direct advice for new and existing (re)insurance entities.
- Assess your overall performance against the industry and peers with our ratio and benchmarking analyses

Technical and Analytical Services

- Analytical services in support of reinsurance, collateral, and fronting negotiations
- Loss scorecards and cause of loss reports to proactively manage claims costs

Providing Depth of Expertise

- **Experienced personnel:** We have consciously tried to hire and retain experienced (re)insurance entity insurance professionals.
- **Motivated staff:** As (re)insurance entities are at the heart of our company, our incentive programs are designed specifically for our (re)insurance entity management and consulting personnel.
- **Account team structures:** All our account teams include a company director, providing clients with direct access to the firm's senior management. Our staff has received high ratings in our customer surveys for their responsiveness and attention to detail. We have not experienced high staff turnover, and many are long-term employees.

Timeliness is excellent. Knowledge is outstanding. Solution-focused answers and an impressive grasp of the data are always readily available.
